

code_in_place_2021

Section 05

Watercooler

- What's your favorite Code in Place moment(s)?
- What will you use your python knowledge for?
- Pineapple on pizza?

Shared Agreements

- ✓ **Use professional, courteous, and thoughtful language**

Be mindful of your peers when speaking and asking questions

- ✓ **Assume your peers have good intention**

Even if their words or actions cause concern, remember that we're all learning together.

- ✓ **Ask questions**

There is NO silly question

```
names = ['Julie', 'Mehran', 'Simba', 'Ayesha']
names.append('Karel')
for value in names:
    print(value)
max_index = len(names) - 1
index = random.randint(0, max_index)
correct_answer = names[index]
prompt = 'Who is in index...' + str(index) + '? '
answer = input(prompt)
if answer == correct_answer:
    print('Good job')
else:
    print('Correct answer was', correct_answer)
```

Review concepts

- Lists
- Files

```
colors_list = ['red', 'green', 'blue']
```

```
# manually print all colors
```

```
print(colors_list[0])
```

```
print(colors_list[1])
```

```
print(colors_list[2])
```

```
# dynamically print all colors
```

```
for index in range(len(colors_list)):
```

```
    print(colors_list[index])
```

```
colors_list = ['red', 'green', 'blue']
```

value	'red'	'green'	'blue'
index	0	1	2

```
print(colors_list[3]) # IndexError: list index out of range
```

```
colors_list.append('alpha')
```

```
print(colors_list[3]) # alpha
```

value	'red'	'green'	'blue'	'alpha'
index	0	1	2	3

```
colors_list = ['red', 'green', 'blue', 'alpha']
```

```
# change the value at index 1
```

```
colors_list[1] = 'red'
```

value	'red'	'red'	'blue'	'alpha'
index	0	1	2	3

```
for index in range(len(colors_list)):
    print('color ', str(index + 1), 'is', colors_list[index])
    # color 1 is red
    # . . .
```

```
FILENAME = 'covid19-survival-list.txt'
items_list = []
with open(FILENAME) as file:
    for line in file:
        items_list.append(line.strip())
print(items_list)
# ['food', 'water', 'toilet paper']
```

Hands on

Bonus challenge

- Analyze COVID-19 case data from Jan 22, 2020 to May 12, 2021
- Inspiration for final project
- <https://github.com/wade-fagen/91-DIVOC>

Thank you

- Learnt so much from you
- Feel free to connect with me on my social handles, I'm @dickwyn everywhere
- My Code in Place experience video – June 03
- www.dickwyn.xyz/cip-2021

The journey ahead...

- Grateful that I was a part of your journey
- Coding can be your "superpower"
- "You can't connect the dots looking forward, you can only connect them looking backwards"
~ Steve Jobs
- Don't forget to have fun
